The Leader in the Sale of Multi - Unit Restaurants

National Restaurant Brokers is a unique brokerage firm dedicated solely to brokering single and multi-unit restaurants, and effectively providing a variety of corresponding services related to those transactions.
That's all we do.

Since 1987, we've developed and continue to refine our remarkable combination of hands-on real world deal experience, and our unparalleled focus on maximizing results in executing and closing our transactions. We've become the premium go-to brokerage firm serving the multi-unit restaurant industry.
We live and breathe for our clients, every day.

We handle each assignment in a thoroughly professional and highly confidential manner. Our exclusive focus on the restaurant industry, and our extensive track record of successfully closed transactions, enable us to meet the most demanding objectives of the widest array of single and multi-unit restaurant operators and investors.
We can satisfy almost any criteria set by any buyer.

We're the only brokerage company to publish our list of available multi-unit restaurant operations on our website, www.restsearch.com. We've continued to publish our list since 1997, while professionally maintaining the confidentiality of the identity of the multi-unit restaurants that we sell and lease.
A very difficult task.

We constantly update our large proprietary database of more than 40,000 active single and multi-unit restaurant buyers and tenants seeking to grow their restaurant operations through acquisitions, conversions, and new restaurant openings. Accordingly, we can always quickly tap into a ready pool of qualified and motivated buyers and investors, and more effectively hit the ground running with each and every assignment as it comes in. We're the only brokerage company to advertise in Nation's Restaurant News on a regular basis, and our website is visited hundreds of times per week.
Always a ready pool of motivated and qualified buyers.

Since 1987 dedication to the multi-unit restaurant operations and lending industries, and our continued and committed hard work for our clients, have enabled us to develop and maintain a deep and varied high-quality inventory of single and multi-unit restaurant operations available for acquisition, including both franchised and independent restaurants.
We're the first call made by every informed buyer.
We're the first call made by every informed seller.
